I. Call to order

The meeting was held at 11h30 on September 15, 2017 at Concordia University 8th floor.

II. Attendees

Daniel Anthony Romero, Loïc Huss, Alex Hayeur, David Bérard, Evan Mateo, Xintong Chen, Karen Bie & Kayne Herrmann.

III. Open issues

- a) Create a repository
- b) Set up Android Studio and link to GitHub
- c) Further discuss frameworks
- d) Divide the tasks
- e) Start project (basics)
- f) Discuss features for Sprint 2

IV. Accomplished actions

- a) David created the repository and invited all team members as well as the TA and professor to join.
- b) Each team member cloned the repository and set up Android Studio in order to get ready to start the project.
- c) After reviewing the frameworks for the app, the team concluded that Firebase SDK would be a better choice for a database since the operations are made in Android Studio. Thus, it eliminates the need for scripting.
- d) Daniel created tasks and assigned team members to each of them.
- e) A basic database was created and then linked to the native app by using Firebase SDK. Evan made a demo on how to do the latter.

- f) The features to be added for sprint 2 are: Login, sign up and listing page as well as a logout. Also, a basic database will be created in order to support these features.
